### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 37-38, 40-42, 45-48 are rejected under 35 U.S.C. 102(b) as being anticipated by Croft (US Patent No. 6,491,062).

Croft discloses a valve and its associate method comprising a valve (42), wherein the valve is arranged to be remotely, wirelessly and electronically operable by a portable device (24 and see figure 1), wherein the valve is arranged to be remotely, wirelessly and electronically operable by a radio control fob (see abstract).

Regarding claims 40-41 and 45, a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim.

### *Claim Rejections - 35 USC § 103*

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 39, 49-50 are rejected under 35 U.S.C. 103(a) as being unpatentable over Croft (US Patent No. 6,491,062) in view of Smith (US Patent No. 4,726,055).

Croft fails to disclose the valve is arranged to be remotely, wirelessly and electronically operable by a telephone.

Smith discloses a valve is arranged to be remotely, wirelessly and electronically operable by a telephone (see Col 2 lines 16-19). It would have been obvious to one of ordinary skill in the art at the time the invention was made to have provided a valve that is operable by a telephone in order to remote control the valve as taught by Smith (see Col 2 lines 16-19).

5. Claims 43-44 are rejected under 35 U.S.C. 103(a) as being unpatentable over Croft in view of Jacobsen et al (US Patent No. 6,662,821).

Croft fails to disclose a motor valve wherein the valve assembly comprises a relay unit.

Jacobsen et al disclose a motor valve (110) wherein the valve assembly further comprises a microprocessor (210), memory (235) and a detector (320). It would have been obvious to one of ordinary skill in the art at the time the invention was made to have provided a motor valve and relay unit in order to determine and control the open and close position of the valve as taught by Jacobsen et al (see Col 5 lines 34-44)

#### ***Response to Arguments***

6. Applicant's arguments with respect to claims 37 and 46 have been considered but are moot in view of the new ground(s) of rejection.

*Conclusion*

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cloud K. Lee whose telephone number is (571)272-7206. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eric Keasel can be reached on (571)272-4929. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
